

W42 GAS

THE WORKHORSE W42 GAS CHASSIS REPRESENTS A WHOLE NEW LEVEL OF LONG LIFE AND ENDURANCE IN A WALK-IN TRUCK.

POWER AND PERFORMANCE. Its GM Vortec 4.8 and 6.0 liter engines give you the fuel economy, acceleration and heavy-duty pulling you need. Mated to the engine is the GM electronic 4-speed transmission for smooth shifting and long service life.

SUPERIOR HANDLING. The W42's front and rear axles, parabolic leaf springs and custom-tuned shocks improve stability and comfort on the road, while the 50-degree wheel cut improves maneuverability in tight spaces.

REDUCED MAINTENANCE. This chassis is built to reduce maintenance costs with features like Texaco DexCool anti-freeze coolant (change after 150,000 miles), long life sparkplugs (change after 100,000 miles).

DEPENDABLE BRAKING. High-performance Brembo™ four-wheel disc brakes and Meritor® WABCO four-channel ABS system with diagnostic capability provide dependable stopping, reduced maintenance and longer brake life.

With capacities from 10,000-16,000 lbs. and wheelbases from 125-190 inches, there's a W42 platform ideally suited to move your business forward.
