

W62 GAS

A HEFTY PAYLOAD AND TOP-PERFORMING FEATURES MAKE THE W62 THE PERFECT CHOICE FOR A HEAVY-DUTY WALK-IN TRUCK.

At 23,500 lbs. GVWR, the W62 is the largest gas walk-in chassis available. So it's ideal for your laundry, linen or newspaper delivery business. Or for your tool trade, plumbing or utility company.

Because the W62 is a Workhorse — as are 90 percent of gas walk-in trucks in the marketplace — you can be sure it's engineered to move your business ahead. We equipped it with the powerful GM Vortec™ 8100 gas engine; smooth-shifting, fast-accelerating Allison transmission plus advanced, sure-stopping Meritor® Quadraulic™ brakes.

With capacities from 19,500-23,500 lbs. and wheelbases from 157-218 inches, you're sure to find the right W62 for your specific application. And we'll cover your truck with free roadside service for three years of 36,000 miles. No other walk-in truck manufacturer does.

Choose the Workhorse W62 as your next heavy-payload gas walk-in truck.
